**SECOND QUARTER
FISCAL 2024 EARNINGS**

MAY 2024

PRELIMINARY STATEMENTS

FORWARD LOOKING STATEMENTS

This presentation contains certain forward-looking statements. These statements are based on the company's current expectations as to the outcome and timing of future events. All statements, other than statements of historical facts, that address activities or results that the company plans, expects, believes, projects, estimates or anticipates will, should or may occur in the future are forward-looking statements. Actual results for future periods may differ materially from those expressed or implied by these forward-looking statements due to a number of uncertainties and other factors, including operating risks, liquidity risks, legislative or regulatory developments, market factors and current or future litigation.

For a discussion of these and other factors affecting the company's business and prospects, see the company's annual, quarterly and other reports filed with the Securities and Exchange Commission. The company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

OTHER AVAILABLE INFORMATION

This information should be read in conjunction with, and not in lieu of, the company's annual, quarterly and other reports filed with the Securities and Exchange Commission. Those reports contain important information about the company's business and performance, including financial statements prepared in accordance with U.S. generally accepted accounting principles ("GAAP"), as well as a description of the important risk factors that may materially and adversely affect our business, financial condition or results of operations.

ADJUSTED INFORMATION

Unless otherwise specified, all amounts in this presentation reflect certain non-GAAP adjustments for various discrete items and constant currency. FY24 results are presented in constant currency using FY23 rates. Prior years use actual foreign exchange rates. For a discussion of the comparable GAAP amounts, see "EZCORP GAAP Results" and "GAAP to Non-GAAP Reconciliation" in the Appendix.

COMPARISONS

All comparisons in this presentation are relative to same period in the prior year unless otherwise stated. In addition, percentages are calculated from the underlying numbers in thousands and, as a result, may not agree to the percentages when calculated from numbers in millions. All market comparisons are based on available information from similar publicly traded companies.

DEFINED TERMS

See Appendix for definition of terms and acronyms used in this presentation.

COMPANY OVERVIEW

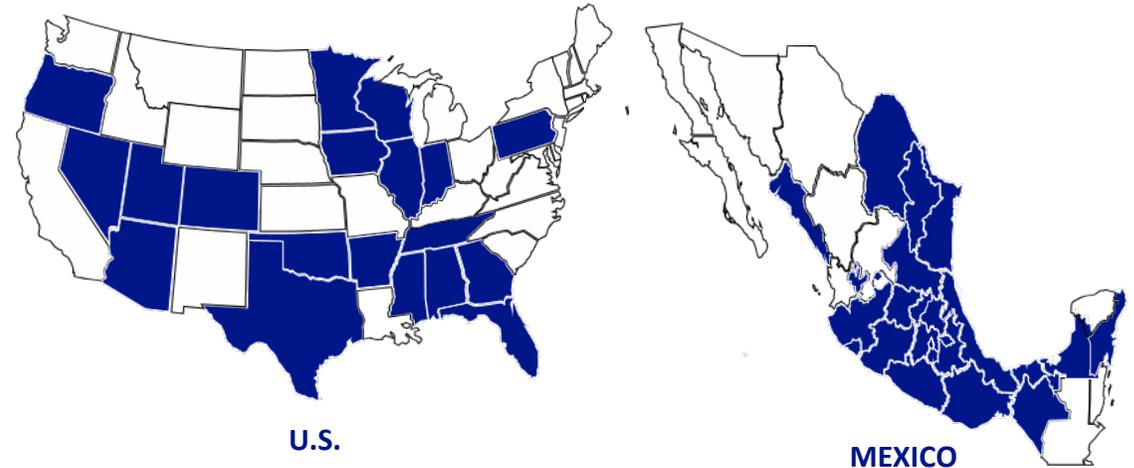

LEADER IN PAWN AND PRE-OWNED AND RECYCLED RETAIL

- Formed in 1989, EZCORP has grown into a leading provider of pawn transactions and seller of pre-owned and recycled merchandise in the United States and Latin America.
- We increase reach and access to financial services through a broad network of neighborhood retail locations and promote the circular economy by recycling pre-owned merchandise and jewelry.
- We are dedicated to building shareholder value by satisfying the short-term cash needs of our customers, focusing on an industry-leading experience that is fueled by continuous innovation.

Q2 FY24 STORE GROWTH AND BALANCE SHEET HIGHLIGHTS

(\$ millions, except for store count)

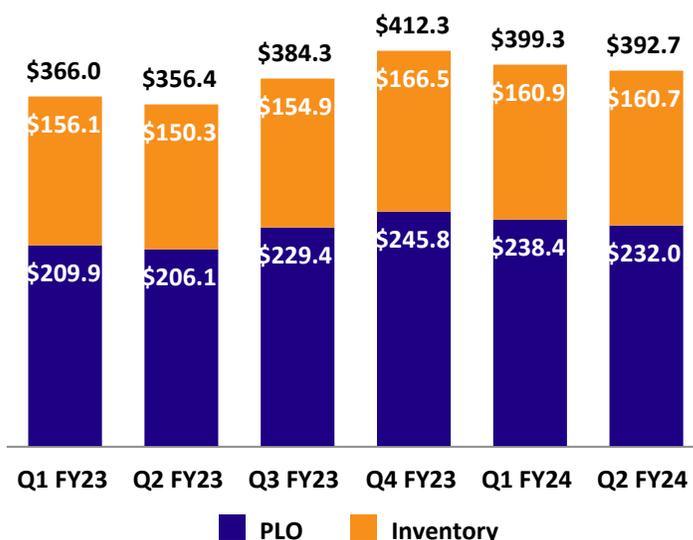

STORE COUNT

- Opened 9 de novo stores in LatAm, comprised of 5 stores in Mexico, 3 stores in Guatemala and 1 store in Honduras
- Acquired 6 stores in U.S., comprised of 5 stores in Texas and 1 in Florida
- Consolidated 6 stores (1 in U.S., 4 in Mexico and 1 in Guatemala)

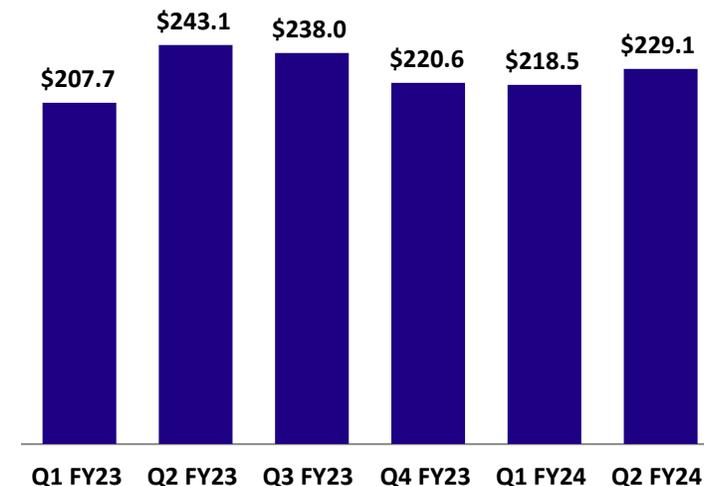

EARNING ASSETS

- Record-setting Q2 PLO balance of \$232M, up 13%, leading to a 13% increase in PSC
- PLO/Inventory ratio remains healthy at 1.4x
- PLO seasonally decreases in Q2 compared to Q1, due to the effect of U.S. tax refunds. Q2 saw a sequential drop in PLO of less than 3%, similar to last year. Prior to COVID, this drop averaged 11%

CASH BALANCE (GAAP)

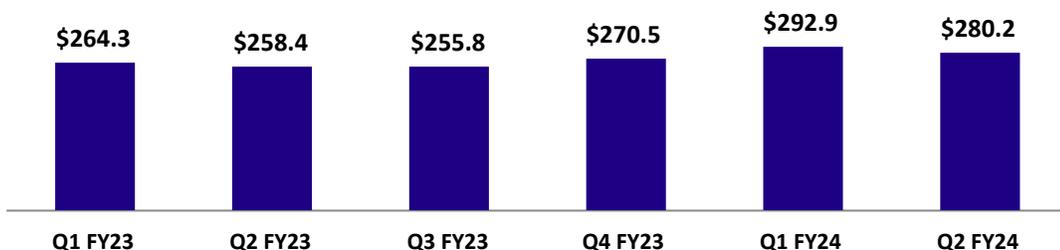

- \$229.1M cash balance, down from \$243.1M, due to the increase in PLO and inventory, strategic investments, share repurchases, and the acquisition of new stores, partially offset by cash inflows provided by operating activities
- Repurchased \$3.0M of shares in Q2
- Substantial liquidity to fund PLO, de novo stores, inorganic growth opportunities, near term debt maturities and share repurchase program

Q2 FY24 FINANCIAL HIGHLIGHTS

(\$ millions, except per share amounts)

TOTAL REVENUES

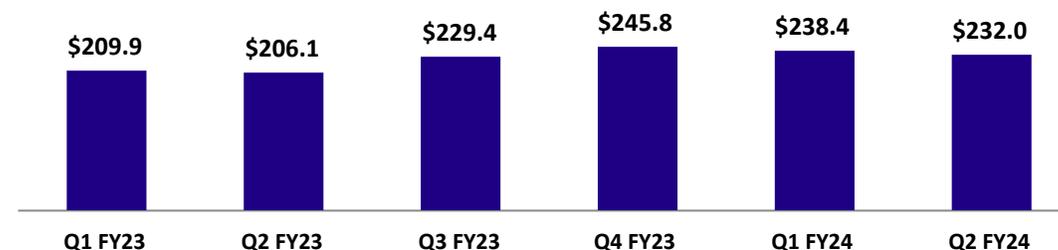

- Q2 record total revenues of \$280.2M, up 8%, driven by higher PSC and sales
- Merchandise sales of \$161.1M, up 6%; same store sales up 3%
- Gross profit of \$164.6M, up 10%, primarily driven by PSC

ADJUSTED EBITDA

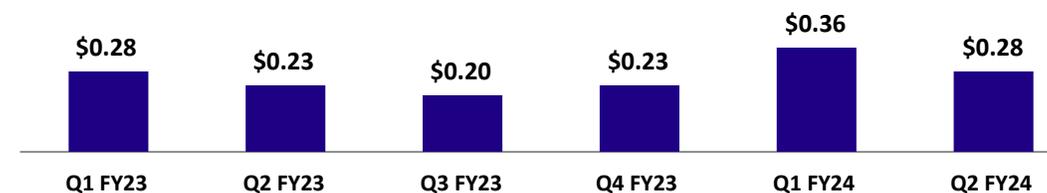

- Adjusted EBITDA of \$36.2M, up 7%

PLO

- Strong consumer demand and excellent customer service continue to propel PLO, resulting in a Q2 record balance of \$232.0M, up 13%
- PSC of \$105.4M, up 13%

ADJUSTED DILUTED EPS

- Adjusted Diluted EPS of \$0.28, up from \$0.23 last year

GAAP to NON-GAAP RECONCILIATION

In addition to the financial information prepared in conformity with U.S. generally accepted accounting principles (“GAAP”), we provide certain other financial information that is adjusted to exclude the impact of restructuring and restatement charges and other discrete items and to reflect the results of our Latin America Pawn operations on a constant currency basis. We believe that presentation of the non-GAAP financial information is meaningful and useful in evaluating and comparing our operating results across accounting periods and understanding the operating and financial performance of our business. We believe that the non-GAAP financial information reflects an additional way of viewing aspects of our business that, when viewed with our GAAP results, provides a more complete understanding of factors and trends affecting our business. We provide non-GAAP financial information for informational purposes and to enhance understanding of our GAAP consolidated financial statements.

You should consider the non-GAAP information in addition to, but not instead of or superior to, our results prepared in accordance with GAAP. Non-GAAP financial information may be determined or calculated differently by other companies, limiting the usefulness of that information for comparative purposes.

- Adoption of new accounting standards for convertible notes in ASU 2020-06 at the beginning of Q1 2022
- Under this standard the dilutive effect of the convertible notes on EPS is accounted for by the if-converted method
 - This method requires that the numerator be adjusted by the interest expense on an after-tax basis
 - This method also assumes the notes are converted at the beginning of the period and the resulting common shares should be included in the denominator
- Application of the if-converted method is only applicable if impact is dilutive
- The if-converted calculations are not affected by the company's current stock price in relation to the conversion price
- Impact to diluted EPS is only accounted for on a prospective basis (not retroactive)

CONSTANT CURRENCY

In addition to the financial information prepared in conformity with generally accepted accounting principles in the United States (“GAAP”), we provide certain other non-GAAP financial information on a constant currency basis (“constant currency”). We use constant currency results to evaluate our Latin America Pawn operations, which are denominated primarily in Mexican pesos, Guatemalan quetzales and other Latin American currencies. We believe that presentation of constant currency results is meaningful and useful in understanding the activities and business metrics of our Latin America Pawn operations and reflect an additional way of viewing aspects of our business that, when viewed with GAAP results, provide a more complete understanding of factors and trends affecting our business. We provide non-GAAP financial information for informational purposes and to enhance understanding of our GAAP consolidated financial statements. We use this non-GAAP financial information to evaluate and compare operating results across accounting periods. Readers should consider the information in addition to, but not instead of or superior to, our financial statements prepared in accordance with GAAP. This non-GAAP financial information may be determined or calculated differently by other companies, limiting the usefulness of those measures for comparative purposes.

Constant currency results reported herein are calculated by translating consolidated balance sheet and consolidated statement of operations items denominated in local currency to U.S. dollars using the exchange rate from the prior-year comparable period, as opposed to the current period, in order to exclude the effects of foreign currency rate fluctuations. In addition, our equity method investment in CCV is denominated in Australian dollars and is translated into U.S. dollars. We used the end-of-period rate for balance sheet items and the average closing daily exchange rate on a monthly basis during the appropriate period for statement of operations items. Our statement of operations constant currency results reflect the monthly exchange rate fluctuations and so are not directly calculable from the above rates. Constant currency results, where presented, also exclude the foreign currency gain or loss. The end-of-period and approximate average exchange rates for each applicable currency as compared to U.S. dollars as of and for the three and six months ended March 31, 2024 and 2023 were as follows:

		Mexican Peso	Guatemalan Quetzal	Honduran Lempira	Australian Dollar
March 31,	2024	16.6	7.6	24.4	1.5
	2023	18.1	7.6	24.4	1.5
Three Months Ended March 31,	2024	17.0	7.6	24.4	1.5
	2023	18.7	7.6	24.3	1.5
Six Months Ended March 31,	2024	17.3	7.6	24.4	1.5
	2023	19.2	7.6	24.3	1.5
